# Rhino ArmaFloor<sup>®</sup> 400 UHS

## DESCRIPTION:

ArmaFloor<sup>®</sup> 400 UHS is a two part high solids, heavy duty epoxy floor coating. For use over concrete floors and drains where protection from corrosion and chemical attack is required. Suitable for all types of vehicular traffic, including forklifts, trucks and trailers.

## FEATURES & BENEFITS:

- Excellent adhesion to concrete, steel and timber and will bond to damp concrete
- Provides excellent chemical resistance to a range of dilute acids, alkalis and solvents.
- The treated surface eliminates dusting and easy to clean.
- The surface appearance is of "orange peel" and effects a degree of non-slip for most dry applications.
- The surface is hygienic due to the seam free application, bacterial growth is eliminated due to the ease of cleaning
- Heavy duty, durable coating offering excellent abrasion resistance

## APPLICATIONS:

- Excellent durability and aesthetics for floor coatings:
  - Retail shops and commercial applications
  - Food processing plants
  - Vehicle workshops
  - Construction and mining industry
  - Warehouses
  - Residential garages and workshops
  - Abattoirs
- Creates a durable, seamless flooring system which conforms to any shape and size.
- Only appropriate floor cleaners should be used
